If You're Gonna Dress Up, Do It Like That
#16

Heeey, Higuchi-

And who might this be?
Ehmm... this is my sister, Tamaki.
For some reason, she wants to come with us today no matter what...
Ara, so you're his sister!
Grr
?
Stare
Pleased to meet you. My name is Higuchi, Im your brother's friend.

HA
Let's get along, Tamaki-chan.
shake shake
Your sister is so fashionable! She's really cute.
Eh?
?
.....
Guh
Cafe
I want you to let my brother go.

Eh?
Hmph
I think that something like that is quite common,
meeting an old classmate again and then goading them into being your customer.
But onii-chan won't be able to stop once he gets caught up in something.
I don't know which store you're working for...
But I think you've made quite enough from my brother
and it's time to...
Hey
Hold on! Wait!
Time out!

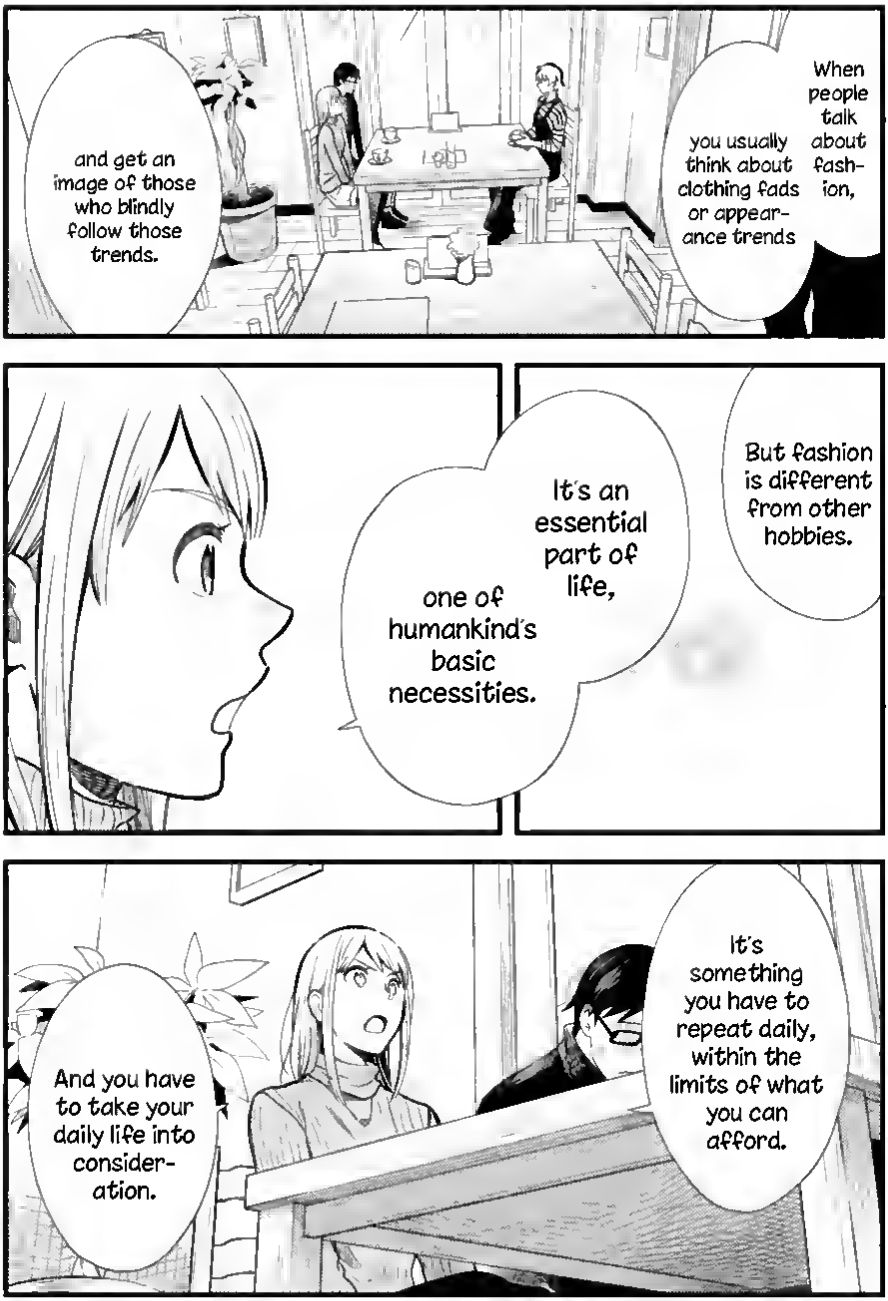
Eh
but
Why did onii-chan...
You think I'm working for a clothing store to try and make Yuusuke buy clothes!?
Eh
Is that not true!?
Of course not!
How did you even come up with that!?
This is because you're way too easy to trick, Onii-chan!
Remember that time when...
UWAAAAA
STOP! STOP! STOP!
That was from way back!
I just thought you made the same mistake again!
Because this has happened before, right? The store clerk made you buy all sorts of weird clothes!
GYAAAAA!!
Why did you bring my bank book!? STUPID!
AHA HAHA
Seriously, Yuusuke?
I mean just look at this! The misunderstanding was not my fault! He was the one who let his savings hit rock bottom!!

...but I still think the way I want onii-chan to approach fashion is different from yours, Higuchi-san

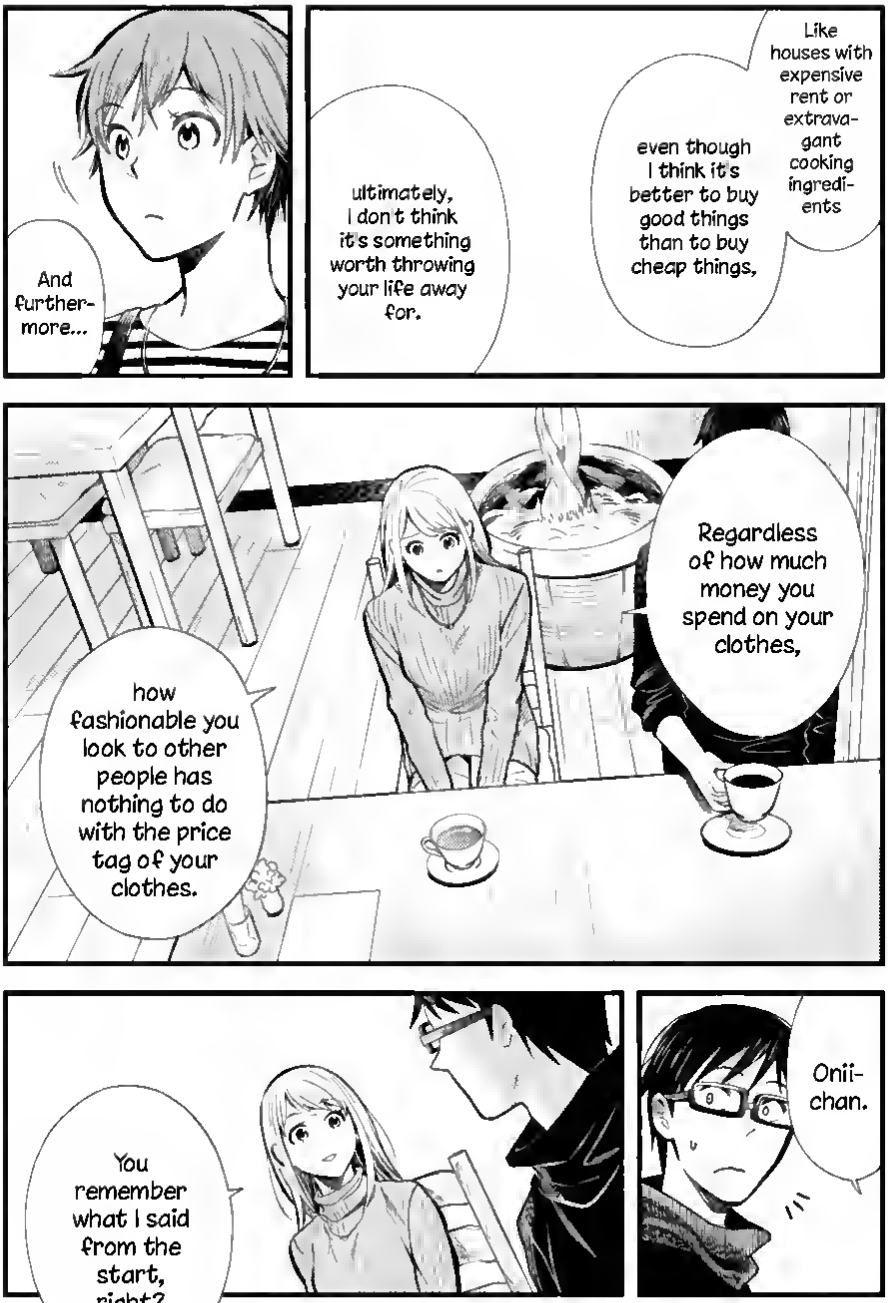
Haa..
So our misunderstanding has been solved, right?

I think if you just burn through fashion like a passing hobby
then it'll all be such a big waste.

And I'm sticking to my ideals, no matter what.



When people talk about fashion,
you usually think about clothing fads or appearance trends
and get an image of those who blindly follow those trends.
But fashion is different from other hobbies.
It's an essential part of life,
one of humankind's basic necessities.
It's something you have to repeat daily, within the limits of what you can afford.
And you have to take your daily life into consideration.



And furthermore...
ultimately, I don't think it's something worth throwing your life away for.
even though I think it's better to buy good things than to buy cheap things,
Like houses with expensive rent or extravagant cooking ingredients
Regardless of how much money you spend on your clothes,
how fashionable you look to other people has nothing to do with the price tag of your clothes.
You remember what I said from the start, right?
Onii-chan.

Wearing expensive clothes does not mean you'll look good.
What's important is how you coordinate them.
Other than that,
this may be just me worrying completely needlessly, but...
HA

The more violent a fire burns...
The faster it will burn through all its fuel and extinguish.
There was a little girl, who was in love with fashion
but that girl right now hates it to the core...
?
I really don't want to see that
happening again...

I think the same way too.
Yeah
Eh.
I will take a hit on my next paycheck if I can achieve balance...
Fufu...
Sometimes I will over-reach a little bit...
Like when there's a piece I really want
but there are a few differences...
I don't have any objections

You've always been too quick at jumping to conclusions, you know~
But... but... that's becau-use...
gyaa
gyaa
turn
We've been through this!!
Then it really is just onii-chan who went fashion-crazy on your own, right!?
Don't say that!
To be able to grab her brother's shivering hands and stand up for him...
I'm really sorry for dragging you into all of this, Higuchi...
But she's a good little sister, right?
Go to hell!? Well you can go to hell too!
My brother can go to hell for all I care!!
That's not true! I just got reminded of some-one, that's all...
Tha...
gyaaa~
They're very close
I think she's a kind little sister who thinks of her brother.

When you've gotten used to buying clothes
you can't really cherish every single item you own anymore,
It becomes a collection at that point
Well, buying clothes can be really fun.
But thinking about the long term
you can forget about that fun feeling very easily....
At that point your passion for fashion will evaporate.
so you end up with no money
while having a bunch of clothes you bought but can't coordinate.
and didn't think much about money while I was shopping...
you should've told me if you were struggling that much!
No, it's not like I was trying to hide it or anything
I just simply had too much fun buying stuff
.....
Speaking of which, Yuusuke,

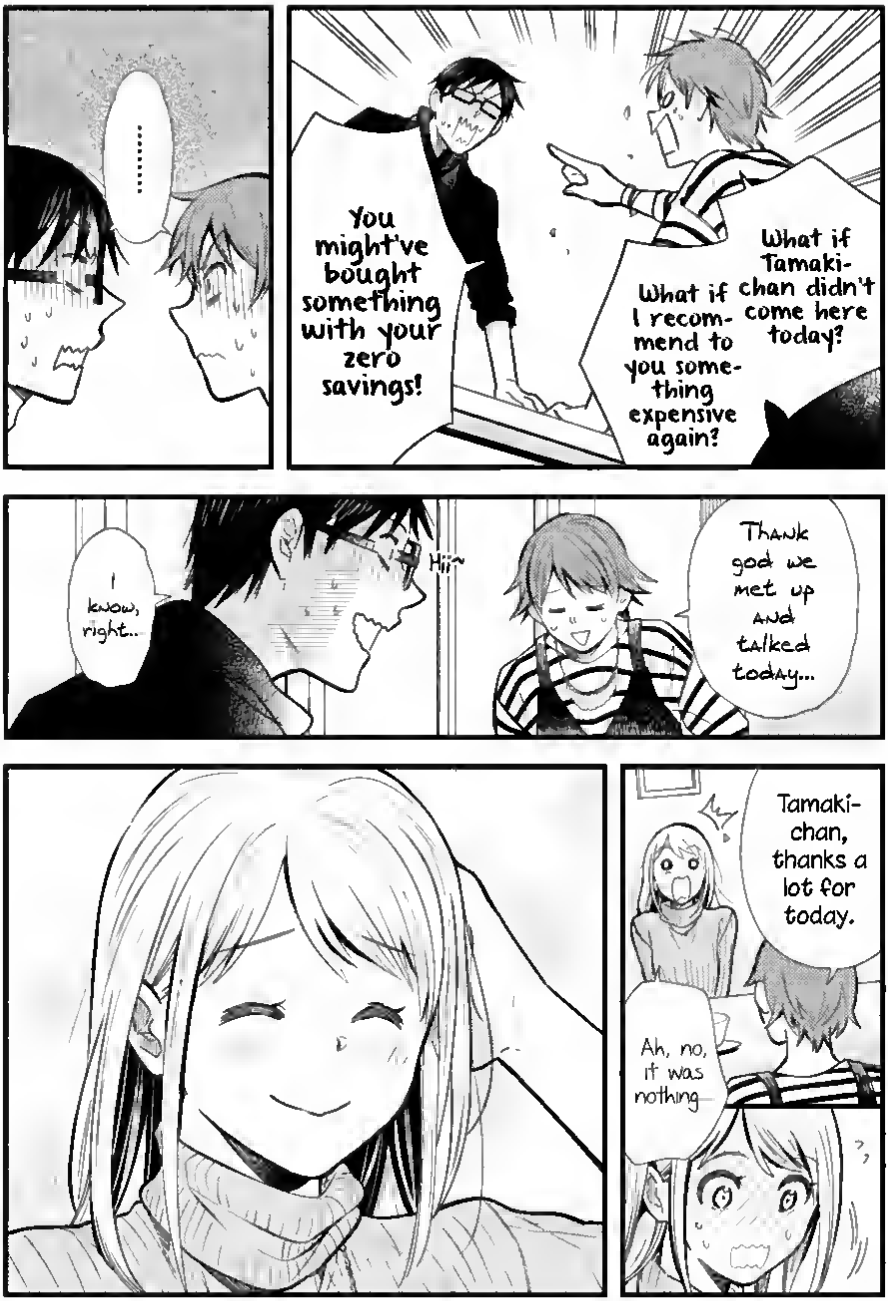
I did not know about Yuusuke's financial state at all.
Unlike me, he's a corporate employee. We talked about a lot of things
and I just thought he wanted some appropriate attire, so I recommended him something nice.

REALLY !!!

Really...
It's not like you made me buy them or anything...
No no no no...

I bought them by myself, for myself, you shouldn't feel guilty about anything...
That's not true!

What? It's not like I bought them because of you or anything!
Now I'm gonna have bad dreams about blowing my savings~
That's why you should've told me from the start~



.....
You might've bought something with your zero savings!
What if I recommend to you something expensive again?
What if Tamaki-chan didn't come here today?
Hii~
I know, right...
Thank god we met up and talked today...
Tamaki-chan, thanks a lot for today.
Ah, no, it was nothing
?

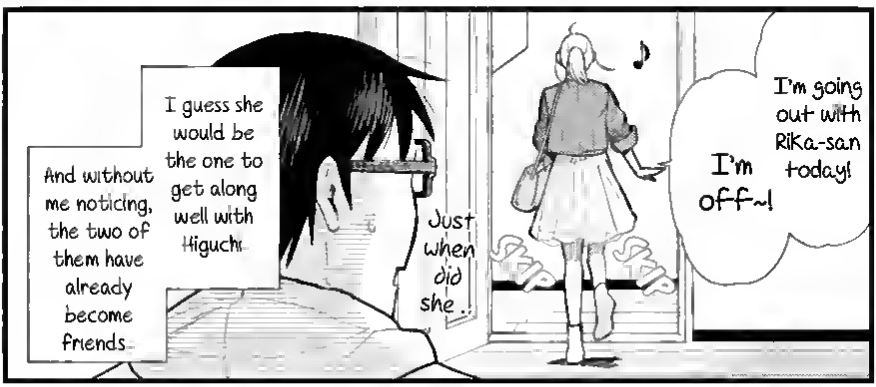
When it comes to money, everyone has a different sense of value, and it's difficult to speak up,
so something like today was really necessary.
I'm really sorry for today.
Don't say that.
blush
PAT PAT
It's fine, it's fine.
Ara
But Higuchi-san
is even more of a fashionable beauty than I've imagined...
?
Honestly, it can't be helped that my brother always loses himself in these things and I got a bit desperate..

We're going to check out some clothes together!
Aha hahaha
We're just gonna look.
Just looking and nothing else, okay?
Onii-chan!
C'mon, Yuusuke!
Somehow they became close really fast...
?
O oh... Sure...
Hey, onii-chan,
check this out-

Eh.
I don't really know. It's cute, I think?
Really?

I wonder what Rika-san will think of this~
Ufufu

This outfit
Do you think it's cute?



I'm going out with Rika-san today!
I'm off~!
Skip Skip
Just when did she..
I guess she would be the one to get along well with Higuchi
And without me noticing, the two of them have already become friends
